

# ALDAAN

## PLASTIC INDUSTRY

Leading proficiency

---

Our Passion drives us to offer the most innovative solutions in GRP composite and plastic industry in Saudi Arabia with the latest global technology

## | Our story

We've started our journey in 2004 with a great passion to manufacture and produce high quality local products for our successful partners. We had giving our magic touches transferring the raw materials into finished products that totally satisfy our customer's needs and creating best solutions which go beyond expectations

## | Our mission

Developing, innovating, creating and manufacturing products and solutions that exceed our clients' needs in GRP and Plastic industries

## | Our vision

To be the perfect choice for clients through our pioneer in all targeted industries by applying the latest industrial technologies

# › Our values

**Mastering & perfection**

**Creativity and innovation**

**Quality**

**Constant development**

**Flexibility**

## What is our secret

your project is our priority so we are dedicated towards fulfilling your requirements in the most creative and professional solutions

# GRP composite benefits

## Cost effective

- Extremely long life compared to other materials
- Very low operational cost by no maintenance

## Design flexibility

- Shapes, figures and patterns
- Performance and composition

## High Strength & Stiffness

- Exceptional durability
- High impact strength compared to its lightweight

## High productivity

- Manufacturing techniques
- Ease of handling, fabricating and installing

## Composite Characteristics

Lightweight

Impact-proof

Non-conductive

Non-magnetic

Zero maintenance

Flame retardant

Dimensional stability  
( Zero thermal expansion and contraction )

Anti-corrosive, wear-resisting  
anti-aging and weather-proof

Heat-Resistance  
Cold-Resistance

Chemical resistance

Non-interfering  
( transparent to radio waves )

Ease of making any  
complex shape, surface  
and appearance

flexibility of  
manufacturing process

Large scale work  
is achievable

## › Composite Characteristics

|                                 | GRP    | Aluminum | Wood   | Steel  |
|---------------------------------|--------|----------|--------|--------|
| Strength to Weight              | High   | Medium   | Low    | High   |
| Thermal Conductivity            | Low    | High     | Low    | High   |
| Expansion & Contraction         | Medium | High     | Low    | Medium |
| Corrosion & Chemical Resistance | High   | Medium   | Medium | Low    |
| Electrical Conductivity         | Low    | High     | Low    | High   |

# Composite Applications

---

**GRP Composite is an ideal material for producing items in many industries due to its benefits and features. It is the best choice in many applications and it can be applied to fulfill of any customer's request to satisfy their needs**

# 01

## Architectural and decoration applications

FRP composite has a track record of performance in this field. No limitation for what we can do with it. Dream, imagine and be creative with your design and we will turn it into reality through our magic touches

- Ceilings cladding
- 3D tiles and panels
- 3D screen panels
- Facades and walls cladding
- Domes, columns, entrance and window frames
- Decoration frames (mirrors ,etc ..)
- Decorative wash basin
- Lights decorations
- Sun Shades
- Interiors decorations
- Arts pieces, vase, antiques and gifts
- Fountains
- Doors

# Display systems

We excel in manufacturing things that helps you to display your products in the best way to give these products their beauty

- Mannequins
- Sculptured Figures
- Exhibition stand
- Window display

# 03

## Advertising & promotion applications

Since the concept is your message, we embrace the idea, develop it and manufacture it with the best choice of materials and by highly skilled hands to deliver it as per your campaign and help you best promoting your services and products

- display figures
- Showrooms
- Gifts, signages and art pieces
- Kiosks
- Display stands

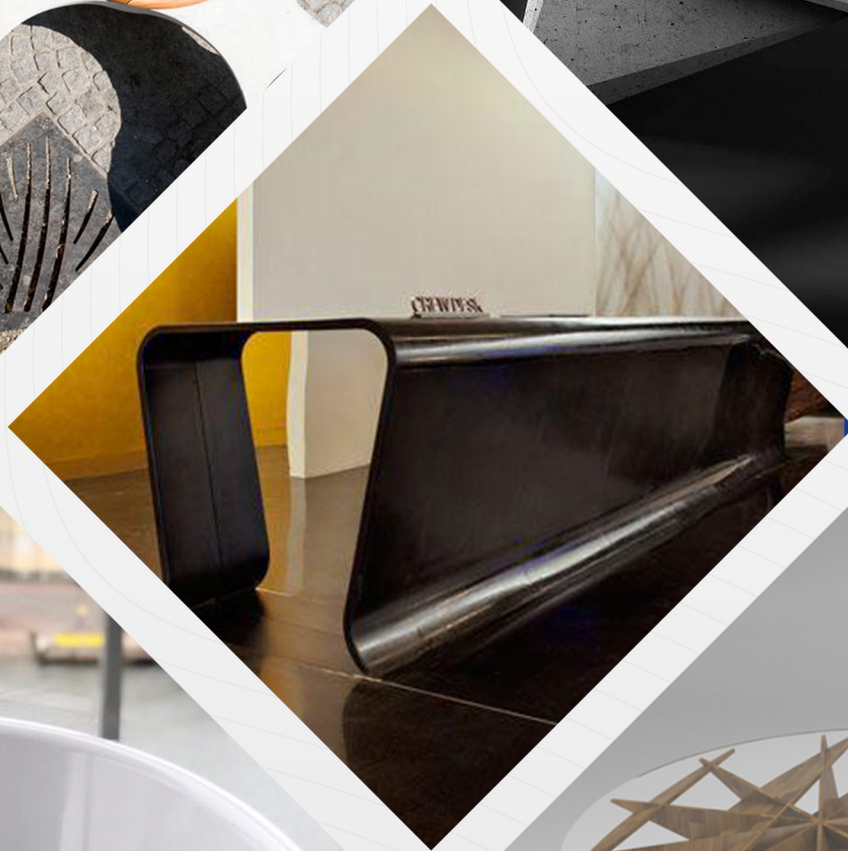

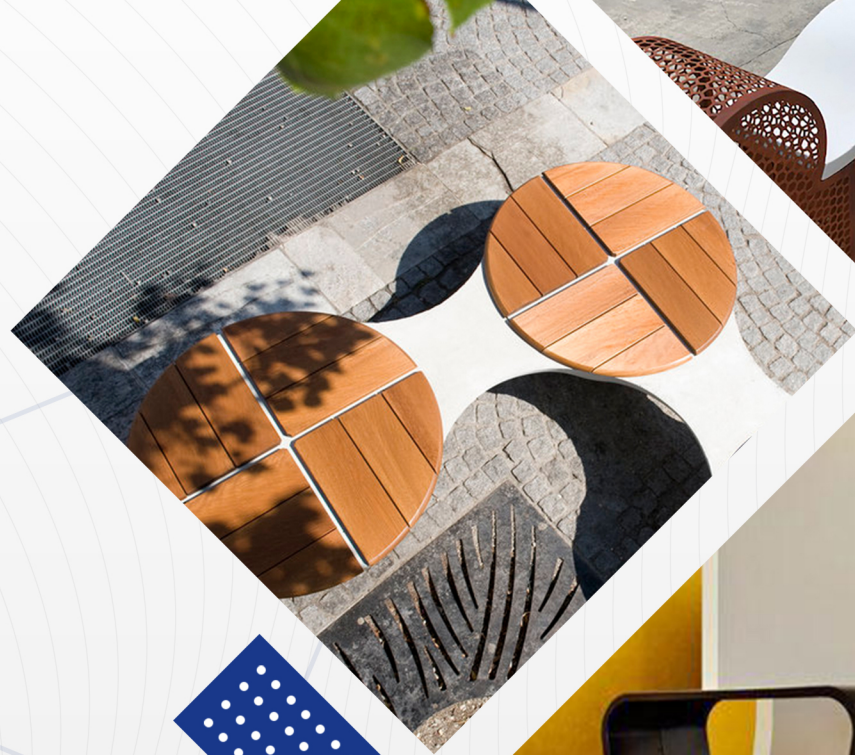

# 04 Furniture

Our unique innovations of furniture designs give us the preference of offices and outdoors furniture especially custom made

- Chairs and benches
- Tables
- Desks
- Reception counters

# 05

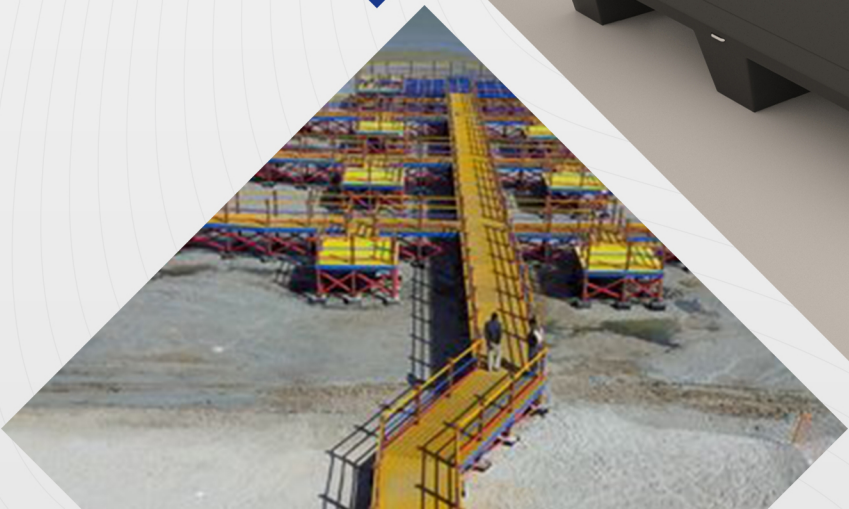

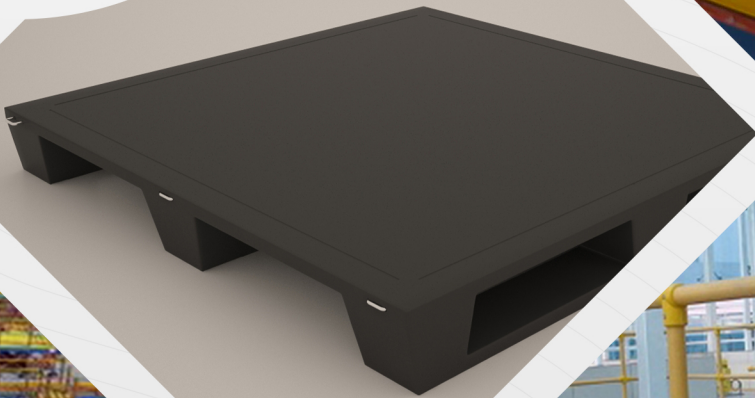

## Industrial & engineered Applications

We are offering a wide range of high quality industrial products and ready to engineer it as per customer's requests

- Handrails
- Ladders & stairs
- Industrial platform
- Cement casting panels & molds
- tanks
- Electrical products
- cable trays
- Electric boxes
- corrugated sheets
- checkered plate
- Industrial structure systems
- custom made Products

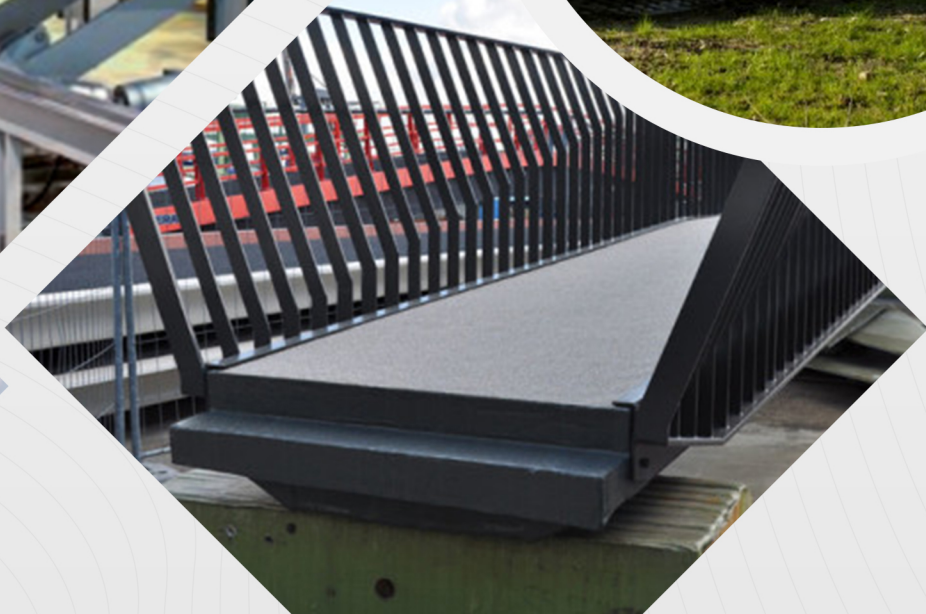

# Construction Applications

Since it's the core of everything we provide the best solutions that fit with construction industry by applying the latest technology

- Lighting poles
- Bridges
- Pillar & supports
- Floors surfaces
- Concrete insulation
- Road barriers
- Pipes

# 07

## Logistics & transportation applications

Our techniques drive us to offer solutions in the automotive industry to make your life easier and more comfortable

- Cars and trucks body parts
- Vehicles spare parts
- Train body parts
- Train interiors

# Marine applications

GRP composite has revolutionized the marine industry due to its characteristics, and excellent durability

- Platform
- Marine dock
- Boats

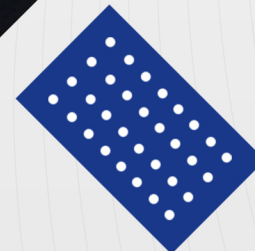

# Aerospace applications

Our limit is the sky. We offer high - quality and flexible aerospace applications for your business

- Aircraft models
- Airplane body parts
- Aviation services parts

# Military applications

We are working on adapting GPR composite material to make the best products that are characterized by strength and rigidity to suit military purpose used for it

- Structures and parts of Machinery and equipment
- Chests, Boxes, lockers and tanks
- Warehouses and stores
- Special parts and spare parts
- covers of electrical and electronic devices and equipment
